

## Who are carers?

*A carer is someone who, without payment, provides help and support to a relative, friend or neighbour who can't manage without their help. This could be due to age, physical or mental illness, addiction or disability.*

**Most of us will be a carer at some time in our life and almost certainly none of us will be ready for it!**

**Being an unpaid carer is probably one of the most rewarding things you'll ever do but it can also be expensive, exhausting and worrying...**

**... so it's good to know that there's an organisation in Fife that will help you.**

## How can Fife Carers Centre help you? We give help with...

- Information, ideas and tips – on all sorts of things to do with your caring role, including working on a Carers Support Plan.
- Workshops, information sessions and learning groups to help build your knowledge and confidence.
- Applying for Welfare Benefits and grants to support you and the person you care for.
- Access to Stress reducing activities to give you some time to yourself and help you relax.
- Referrals to other organisations that can help with your situation.
- Contact with other carers – in learning and social situations to help you share your experiences and learn from each other.
- Most importantly we give carers somewhere to go when you need to talk to someone who understands how tough things can be – somewhere you can talk openly and honestly about how you feel and know you'll be supported and helped without being judged.
